

# PONNY KIDS AND THEIR PROJECTS

December 2013

## Life in Europe - Germany

This lesson Tigers learned something about our neighbours – Germany. They know this country pretty well because it is not far from their homes.

Drawing first...

Tigers know Europe...

Pictures are fun...

We know German cars...

And fairytales...

Playing at the end...

At the beginning Tigers wanted to draw and guess flags again. This got to be our ritual as a start of each lesson of the European project. And it is getting easier and easier for them. Tigers drew some cards with pictures as well and they were asked to assign them to the right place in map of Europe. The map helped them because there are pictures too. The next step was about colouring the map of Germany and talking about this. They had to colour the flag again. At the end the favorite wooden map came on turn.
