

# PONNY KIDS AND THEIR PROJECTS

December 2013

## Life in Europe - Luxembourg

This lesson we learned about little country in the north of our european continent. It is not really known for Tigers so that is why we should talk about it. It is Luxembourg.

Tigers like the picture map...

Show me the flag in map...

Assign the pictures...

Luxembourg needs to be done...

Reward at the end...

Wooden puzzle map...

We looked in to the map first. Tigers love it because they already know many of the country that are in the map. There is a help in the form of pictures in the map. That is why this is so much fun for them. They can recognise the countries because of the pictures. They had to practise the names of the flags. Tigers are getting much better in this so they like it a lot. Then they did the revision of the pictures connected to the countries. At the end the Luxembourg was on the agenda – map and flag. At the very end Tigers played with the wooden map which is very popular.
