

# PONNY KIDS AND THEIR PROJECTS

November 2013

Life in Europe - France

This time we talked about country which is quite known for Tigers. Everyone heard about France already so it was much more fun for them.

Searching in the map...

Let's colour some flag again!

We know France pretty well...

And we know where to find it...

They went through the map together. As usually they were asked what they can see in the map what is familiar for them. We talked about Eiffel tower, croissants, Asterix and Obelix etc. All the stuff that they know and something more. They coloured the flag again and looked at the shape of the country so they were able to find it in the wooden puzzle map.
