

PONNY KIDS AND THEIR PROJECTS

October 2103

Life in Europe – Finland

This Friday in our project about Europe we talked about another country. This time it was Finland. Scandinavian country which is not really known for Tigers but quite interesting we found out.

We looked at map first...

Tigers repeated the flags...

Then some revision with pictures...

They learned about Finland...

Coloured a flag...

And played with figurines...

Tigers did some revision first again. They like to name the flags so they did this first. Tigers were able to match pictures of icons from previous countries to the flag and name of the country. They remember a lot and they like to see something familiar so it is really nice to see them getting involved to the project. They red in the picture map again and it was pretty interesting for them. And they coloured the flag. At the end of the lesson they played with models of monuments and were able to match them with countries as well. Well done Tigers.
