

# PONNY KIDS AND THEIR PROJECTS

September 2103

Life in Europe – The Czech Republic

In today project we talked about the well-known country – The Czech Republic. But firstly we had to repeat the information from the last lesson.

So we started with pictures of things...

typical for Belgium...

We went through the Czech map...

and we coloured some pictures...

It was really nice lesson. Children remembered all the stuff about Belgium from last week. So it was easy to repeat everything. Then we talked about Czech republic what Tigers know and what they remember from last year. We coloured the map and flag of Czech republic during repeating the topic.

Children like this project because it is getting much easier for them. They enjoy the fact that they already know something about the countries this time especially because it was Czech republic.
