Life in Europe - Italy

Today it was Italy on the agenda. Well known country for Tigers as well so it was pretty easy to introduce it to them.

Flags first...

Europe everywhere around...

What do we know about Italy?

A lot! Let's find it in the map...

Italy is not anything new for Tigers. They know Italian food, they know that Italy looks like a shoe in the map and they know the tower in Pisa as well. We looked in the map again trying to find something that they do not know about Italy. We did the revision of flags as well. Tigers like it because they are getting better in this. Each of them drew 3 flags and should have assigned them to the right country in the map. Later we did the same with things typical for the countries. Well done Tigers!
