

PONNY KIDS AND THEIR PROJECTS

October 2013

Life in Europe - Denmark

The next lesson of our european project was about Denmark. This country is quite familiar to the children because of one particular thing typical for Denmark.

Let's talk about Denmark...

Lego is what we know...

We read the Ugly Duckling fairytale...

Tigers know the flag already...

Let's have some fun at the end...

With a bit of revision as well...

The country was introduced to the children first. We talked about what they know about Denmark already. Some of them knew the famous thing that comes from Denmark is LEGO so that was not a new information for them. We talked about other things typical for this country Tigers then coloured their flag like allways. Then they did some revision from last lessons with pictures and played with new teaching aid – wooden puzzle map of Europe. Children loved it.
